## 11mm Audi, VW, SEAT, and Skoda Alloy Wheel Spacers

Cena brutto	<b>334,67 zł</b>
Cena netto	<b>334,67 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>379174856</b>
Kod producenta	<b>FMWS11</b>
Kod EAN	<b>*5056721240770*</b>

### Opis produktu

**Before fitment, please ensure the spacer fits flat to the back of the wheel. Please also test for clearance after fitment at the wheel arch under full right and left wheel lock.**

**Extended wheel bolts are not supplied. These have a bore size of 57.1mm.**

These CNC machined precision alloy wheel spacers are 11mm thick with a 57.1mm bore and dual 5 stud bolt pattern for both 100 and 112mm PCD fitments. The spacers are anodised black to inhibit corrosion and "bonding" to the wheel or hub and are machined with an alloy spigot to allow centering on the hub. (often called "hubcentric" spacers) The spacers are suitable for most vehicles produced by Volkswagen Group. A 11mm spacer will give an overall track increase of 22mm when fitted to both sides of an axle.

These spacers are priced and sold per pair.

Please note: Our 11mm, 16mm, and 20mm hubcentric wheel spacers will NOT work on the rear wheels of the MK3 VW 5x100 applications due to the longer length of the center hub. There is no problem with the smaller 3mm, 5mm, and 8mm NON-hubcentric spacers.

**In The Box:  
2 x FMWS10 11mm Wheel Spacer  
1 x Forge Sticker**

All Forge wheel spacers are manufactured from 6082 alloy
