### Opis produktu

**Before fitment, please ensure the spacer fits flat to the back of the wheel. Please also test for clearance after fitment at the wheel arch under full right and left wheel lock.**

**Extended wheel bolts are not supplied.**

**These wheel spacers are not hubcentric. These have a bore size of 57.1mm.**

These CNC machined precision alloy wheel spacers are 3 mm thick with a dual 5 stud bolt pattern for both 100 and 112mm PCD fitments. The spacers are anodised black to inhibit corrosion and "bonding" to the wheel or hub. These spacers are suitable for most vehicles produced by Volkswagen Group. A 3mm spacer will give an overall track increase of 6mm when fitted to both sides of an axle.

These spacers are priced and sold per pair.
