3mm Wheel Spacer for Hyundai i30N, Veloster N, Kona N, Elantra N, & More

Cena brutto	222,02 zł
Cena netto	222,02 zł
Dostępność	Na zamówienie
Numer katalogowy	379177258
Kod producenta	FMWS01-3
Kod EAN	*5056721240763*

Opis produktu

These spacers are suitable for many Hyundai vehicles, but please check the compatibility list [here](#) or [contact us](#) to confirm fitment.

These wheel spacers are available in **3mm thickness with a 67.1mm bore and 5 x 114.3mm PCD stud bolt pattern**. The Forge spacers can give a maximum of 6mm increase in track width.

To fit the stock Hyundai Kona N, Hyundai, i30N MK3.5 Facelift, and the Hyundai Veloster N 2021- wheels over the [Forge brake kit](#), these spacers are required and are included in the kit when purchased. The development team here at Forge Motorsport found 3mm to be the perfect distance to allow clearance between the spokes of the alloy wheel and the brake calliper, whilst still safely securing the wheel to the hub with the stock wheel nuts.

Manufactured in the UK and anodised black to inhibit corrosion and 'bonding' to the wheel or hub. All Forge wheel spacers are manufactured from 6082 alloy. Before fitment, please ensure the spacer fits flat to the back of the wheel. Please also test for clearance after fitment at the wheel arch under full right and left wheel lock.

These are sold as a pair. Extended wheel bolts are not supplied. Although these are not hub centric spacers, the hub protrudes past the spacers centre bore allowing your wheel to safely sit onto it.

In the Box:
2 x Wheel Spacer
1 x Forge Sticker
