Alloy Actuator for the Hyundai Genesis

Cena brutto	1 235,80 zł
Cena netto	1 235,80 zł
Dostępność	Na zamówienie
Numer katalogowy	379175361

Opis produktu

Designed by Forge to replace the original component this uprated piston design actuator is serviceable and guaranteed for life. It is supplied with the necessary mounting bracket.

This product is built with a predetermined actuator spring suitable for at or slightly above factory boost levels. The actuator can be assembled with a stiffer spring upon request. Please contact us directly concerning this process.

We cannot guarantee compatibility with all applications, nor the ability to increase the boost output beyond a level that is within the parameters set by the engine-management-system of the given vehicle at the time of installation, whether that system is factory or aftermarket. Forge Motorsport nor any of it's Authorized Distributors can assume any responsibility for any adverse effects resulting from the installation and tuning of this product onto a vehicle whose engine-management-system, whether factory or aftermarket, is not capable of allowing for the desired level of adjustment.

Please note

Diaphragm sealed internals are the default selection for this actuator product but customers now have the option of piston sealed internals. Unique to Forge Motorsport this innovation offers equal performance to the diaphragm type and low maintenance due to the hard wearing nature of piston sealed valve internals

**In The Box:
1 x FMPACHG Actuator
1 x Forge Sticker**

This actuator is built with a Green coded spring as standard. If you require the FMPACTUN spring tuning kit seen in the associated products below, you will need to select the Piston Type option.
