An Intercooler Resonator Delete Hose for Mini

Cena brutto	951,54 zł
Cena netto	951,54 zł
Dostępność	Na zamówienie
Numer katalogowy	379173381

Opis produktu

This intercooler resonator delete hose fits the 2007 onwards BMW Mini Cooper S.

This hose replaces the two OEM hoses and a sound resonator. The purpose of the OEM resonator is to reduce the roar / whoosh noise that can often be associated with air passing through pipe work. By removing this resonator with a smooth bore hose the resistance is reduced. Several of our competitors claim horsepower gains for the installation of this type of hose, but our own testing showed these to be marginal so we prefer not to make such claims. We did however see change in the torque characteristics with between 10 and 15 ft/lbs improvement on our own test car. It is always difficult to quantify gains for a specific product as a lot will depend on other modifications that have been carried out.

Typically if the car is running tuned software with a free flowing downpipe and exhaust, changes made on the intake, with the fitment of this hose and or a intake filter kit will be more dramatic. From a drivers perspective, after fitting this hose on its own, we did not perceive any increase in noise, but there was a noticeable change in the willingness for the engine to accelerate, which can be associated with the torque improvement and small gain in horsepower.

As an added bonus this hose is available in red, blue, or black (a real stealth install) and will withstand greater temperatures and pressures than the original hose.

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
