Opis produktu

Audi S5 3.0TFSI Intake Hose

Silicone intake hose for Audi S5 3.0TFSI this hose is a direct replacement for the OEM plastic corrugated intake pipe. This high quality, multi-ply reinforced silicone hose offers smoother internal profile to enhance flow and does away with the stock resonator.

☐ Was delivered promptly. Good quality product, and very easy to fit - only took 5 minutes. Slightly better throttle response and opened up the sound of the V6 ☐

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
