Kod producenta	<b>FMDVF14A</b>
Kod EAN	<b>*5056721239262*</b>

### Opis produktu

**We recommend [servicing](#) your valve every 3 years, or 20,000 miles, whichever comes sooner**

This is a piston design blow off valve that is a direct replacement for the original fitment. This valve gives greater longevity than the diaphragm (OEM) valves, but also benefits from its ability to be fitted with different springs when the boost pressure has been increased or the engine has been modified. To ease installation, the top or vacuum connection is angled.

#### **In The Box:**
