## Blow off Valve Spring Tial Sport Q and QR Series Yellow

Cena brutto	<b>149,99 zł</b>
Cena netto	<b>121,94 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>331558705</b>
Kod producenta	<b>USA-TIAL-001609</b>

### Opis produktu

TiALSport springs are engineered for precise control under extreme conditions. Manufactured from 17-7PH stainless steel, they provide consistent pressure at high temperature, and resist 'relaxing' at temperatures up to 900degF (483degC), well beyond the required temperatures of the actuator. Springs are color-coded, and are sold individually. Please see the specific diagram for your specific model, to correlate color coding and diameter in order to choose the correct item. Q and QR springs are not chosen by positive (boost) manifold pressure rating, rather, should be chosen based on negative (vacuum) manifold pressure at engine idle.
