### Opis produktu

Hosetechnik are proud to release a high-performance 4 piece brake line set for the BMW i8 Hybrid sports car. These are a direct replacement/upgrade for the OEM brake line set and require no further modifications to fit.

Each brake line is hand built in house at our workshops in Gloucester (UK) using only the best available 95PVC coated Stainless steel braided PTFE hoses and machined Stainless Steel end fittings resulting in a brake hose that will perform under the most extreme and harsh conditions, whilst still looking good and perform at the highest level.

- Our hoses eliminate all the problems associated with the original manufacturer's rubber ones
- Immediate brake pedal response
- Lifetime Warranty
- Choice of colour
- Reduces pedal sponginess under hard braking
- Compatible with all brake fluids
- Will not corrode
