BMW N54 Twin Turbo Pair of Turbo Blankets

Cena brutto	1 305,66 zł
Cena netto	1 305,66 zł
Dostępność	Na zamówienie
Numer katalogowy	379176602
Kod producenta	FMTUBL8
Kod EAN	*5056721234953*

Opis produktu

This pair of Forge turbo blankets are designed for the N54 BMW (1M, 135i, 335i) and designed to isolate the radiant heat produced by the turbocharger. Designed by the Forge development team on the Forge VW Golf MK1 Race car in the harshest of environments and exceeding all expectations, the Forge turbo blanket is designed to assist in the protection and prolonging the life of the engine components.

- Stainless Steel Rivets
- Stainless Steel Fasteners
- Carbon fabric Outer Shell
- Calcium Magnesium Silicate Wool constructed Inner Core
- High temperature silica fabric

The unique design will assist in reducing turbo lag and produce cooler air intake temperatures, The Forge turbo blanket will lose its flexibility over the first few heat cycles as the material cures, so once fitted it should **not** be routinely removed as you will likely damage the blanket. Design innovation keeps the heat of the exhaust gases contained within the hot side of the turbocharger, away from the cool side and the intake path. More oxygen per unit volume reaches the engine, therefore giving more power.

Interior Surface:

- Max Temperature Rating: 2300°F/1260°C
- Continuous Use Limit: 1832°F/1000°C

Exterior Surface:

- Direct Contact Limit: 1800°F/982°C

-
- Radiant Heat Limit: 2500°F/1371°C
