## BMW Wheel Spacers (13mm, 16mm, and 20mm)

Cena brutto	<b>250,90 zł</b>
Cena netto	<b>250,90 zł</b>
Dostępność	<b>Na zamówienie</b>
Numer katalogowy	<b>379176323</b>

### Opis produktu

**Extended wheel bolts are not supplied. These have a bore size of 72.5mm.**

**Before fitment, please ensure the spacer fits flat to the back of the wheel. Please also test for clearance after fitment at the wheel arch under full right and left wheel lock. These spacers are priced and sold per pair. These wheel spacers are hubcentric**

These CNC machined precision **6082 alloy wheel spacers** are available in 13mm, 16mm, and 20mm thickness with a 72.6mm bore and 5 x 120mm PCD stud bolt pattern.

Machined in the UK and anodised black to inhibit corrosion and "bonding" to the wheel or hub and machined with an alloy spigot to allow centering on the hub (often called "hubcentric" spacers). These spacers are suitable for most BMW vehicles but please check the compatibility list or contact us to be sure.

Please choose required size from the drop-down list.

**Please note that a small number of BMW's have longer rear hubs. The maximum rear hub length the 13mm and 15mm wheel spacers will fit is 13mm. Please check before purchasing.**

**In the Box:  
2 x Wheel Spacer  
1 x Forge Sticker**

All Forge wheel spacers are manufactured from 6082 alloy
