Opis produktu

Forge Motorsport Boost Tap Kit for 1.5 TSI Engines and late 1.4 TSI engine **from 2018 onwards** and the Ford Focus ST280

This adaptor installs inbetween the intake manifold vacuum pipe and the vacuum hose coming from it

A simple solution for fitting a boost gauge or vacuum operated valve without having to cut into any original equipment.

Hardware including silicon hose and fitting instructions are supplied and the application is fully reversible.

For this type of engine with the vacuum source here, the following kit is required: [FMBGFK22](#)

If your engine has the vacuum source in this location you will require this kit (FMBGFK21)

In the Box:

Adapter
Small Forge Sticker
Cable ties (x10)
3 metres of 4mm Vacuum Hose
E Clip
