Opis produktu

Uprated Silicone boost hose kit for the VW T5.1, 2.0TDI 84/102/114/140BHP

The Forge Motorsport kit comprises of four silicone hoses complete with CNC alloy couplers and the highest quality stainless steel clamps. These hoses will withstand greater temperatures and pressures compared with the OEM hoses and they look fantastic. Available in your choice of red, blue, or black.

The hoses replace the two intercooler hoses and throttle body hose,

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*

PLEASE NOTE: THE ORIGINAL O-RINGS/SEALS MUST BE RETAINED FOR USE ON THE FORGE HOSES
