Boost Pipe for BMW 135 F20

Cena brutto	2 174,24 zł
Cena netto	2 174,24 zł
Dostępność	Na zamówienie
Numer katalogowy	379175373
Kod producenta	FMBP135F20
Kod EAN	*5056721224565*

Opis produktu

Boost Pipe for BMW 135 F20 -

Many of you will already be aware that the original plastic charge pipe is a real weak link on the N55, and over the last 6 months we have received many requests after the charge pipes fail. If you take a look at the images above you can see how the coupler becomes brittle leading to cracking, fracture and ultimate failure. Our alloy replacement uses a CNC coupler to ensure this is a permanent solution*

We would recommend that whilst replacing this you also consider our FMKT135F20

- The Forge boost pipe for BMW 135 F20 will increase throttle response and decrease turbo lag
- The Forge boost pipe allows you to retain the factory style O-ring throttle lock flange
- Precision CNC couplers allow for a quick and easy connection and disconnection
- Precision CNC machined flanges
- The alloy hard pipes are powder coated to allow for a more durable hard wearing product.
- You can retain the factory electronic diverter valve
- This replaces OEM Pipe Part No. **13717604033**

PLEASE NOTE:

***ORIGINAL O-RINGS/SEALS MUST BE RETAINED FOR USE ON THE FORGE HOSES**

*** PLEASE NOTE, HARDDPIPES ARE NOW MADE WITH A WATER METH BOSS BUILT IN. THE BOSS CAN BE PLUGGED IF NOT USED, THE PLUG IS SUPPLIED WITHIN THE KIT.***

***This will not fit vehicles with XDrive**
