Why should I change my brake lines to Braided Stainless Steel ones?

- YOUR SAFETY!!!
- Better brake pedal feel - firmer under pressure
- More efficient braking- the PTFE lined, Stainless steel brake lines will not expand under load unlike OEM rubber hoses
- Long Lasting- PVC outer and Stainless-Steel end fittings will outlast the standard Mild Steel and rubber lines many times
- Available in many outer colour options to compliment your vehicle
- Rigorously tested and approved to the FMVSS 106 certification standards
