### Opis produktu

This Radium bulkhead plate kit is great when multiple -6AN bulkhead fittings need to pass through a wall, floor, etc. The plate gives a finished look and is necessary when mounting through a soft surface, such as carpet. The bulkhead plate acts as a large washer and is held in place by the bulkhead fittings. This kit is commonly used in trunks when plumbing fuel cells and/or compliments Radium's single and dual pump FSTs.

#### Features:

- Bright dipped black anodized billet aluminum construction
- Capable of passing up to five -6AN bulkhead fittings
- Dimensions: 3.25" OD x .125" Thick
