Opis produktu

CANchecked DTM-Line Cable – Robust, Versatile, Reliable

Our CANchecked DTM-Line cables are the perfect solution for demanding applications in the automotive and motorsport sectors. With a combination of high-quality craftsmanship, thoughtful design, and premium materials, they offer maximum performance and durability.

Product Features:

- Various lengths for every requirement: Available in 0.5 m, 1 m, 2 m, and 3.5 m to optimally fit your individual needs.
- Waterproof and robust: Thanks to the DTM06-4S-E007 connectors with strain relief on both sides, the cable remains reliable even under extreme conditions.

High-Quality Cable Structure:

- 4x22AWG twisted pairs (red & black, yellow & white) for optimal signal transmission.
- Black PVC jacket that is flame-retardant and resistant to gasoline, diesel, and oil.
- Outer diameter: 6.2 mm.

Pinout according to our CANchecked Standard:

- Pin 1: GND
- Pin 2: 12V+
- Pin 3: CAN Low
- Pin 4: CAN High

Versatile Usage:

Our DTM-Line cables are compatible with our CBD08, TCCXX, as well as the Tire and Brake Monitors, but also DTM products from other manufacturers. The DTM-Line offers you maximum flexibility when integrating into existing systems.

With the CANchecked DTM-Line cables, you can rely on dependable data transmission, rugged construction, and top quality – ideal for use in demanding environments. Trust in technology that delivers on its promises.

CANchecked – Perfection for Professionals.
