Opis produktu

CANchecked DTM-Line Cable – Robust, Versatile, Reliable

Our CANchecked DTM-Line cables are the perfect solution for demanding applications in the automotive and motorsport sectors. With a combination of high-quality workmanship, thoughtful design, and first-class materials, they offer maximum performance and durability.

Product Features:

- Different lengths to suit every requirement: Available in 0.5m, 1m, 2m, and 3.5m to best suit your individual needs.
- Waterproof and robust: Thanks to the DTM06-4S-E007 connectors with kink protection on both sides, the cable remains reliable even under extreme conditions.

High-Quality Cable Structure:

- 4x22AWG twisted pairs of wires (red & black as well as yellow & white) for optimal signal transmission.
- Black PVC casing, which is flame-retardant and resistant to petrol, diesel, and oil.
- Outer diameter: 6.2mm

Pinout According to Our CANchecked Standard:

- Pin 1: GND
- Pin 2: 12V+
- Pin 3: CAN Low
- Pin 4: CAN High

Versatile:

Our DTM-Line cables are compatible with our CBD08, TCCXX as well as the tire and brake monitor but also DTM products from other manufacturers. The DTM-Line offers you maximum flexibility when integrating into existing systems.

With the CANchecked DTM-Line cables, you can rely on reliable data transmission, robust construction, and the highest quality – ideal for use in demanding environments. Trust in technology that delivers what it promises.

CANchecked – Perfection for Professionals.
