Opis produktu

The high performance Air Intake System fits into the following vehicles: Audi RS3 8V 294KW/400PS (2017-2020) Audi TTRS 8S 294KW/400PS (2016-2020) Audi RSQ3 F3 294KW/400PS (2019-2020) Engine Code: DAZA/DNW The new WagnerTuning Air Intake System is a direct replacement for the stock system and removes all OEM bottlenecks. The flow-optimized carbon airbox cover and the Ø89mm carbon pipe ensure the best possible airflow characteristics without unnecessarily blocking or swirling. Through its use the airmass flow rate increases by 32% and the response time and the power output of the engine will be improved. In addition, the new WagnerTuning Air-Intake-System is a real eye-catcher inside the engine bay, because of the optical appearance as well as high quality finish. The kit comes with: 1 carbon airbox cover 1 Ø89mm carbon pipe 2 silicone hoses (black) 1 mounting material 1 installation instruction
