Catch Can Kit for BWM E46 E3 Fluid Lock Radium Engineering

Cena brutto	1 348,99 zł
Cena netto	1 096,74 zł
Numer katalogowy	USA-RAD-20-0073-FL

Opis produktu

COMPATIBILITY00-06 BMW E46 M3 (LHD only)03-04 BMW E46 M3 CSL (LHD only)OVERVIEWThe catch can mounts in the RH compartment of the engine bay near the firewall. Thus, it is not compatible with RHD models. It is compatible with early models where the ABS module is mounted in this compartment. It is also compatible with later models that have a secondary PCV system. Radium Engineering's closed loop system does NOT vent to atmosphere (VTA), thus is emissions and track legal. Instead, clean filtered air routes back in through the engine to be burned and to promote negative crankcase pressure for optimal performance. Furthermore, a closed system prevents unwanted oil vapors entering into the cabin. FEATURES- Effectively raises fuel octane and increases performance with cleaner intake air-Prevents oil buildup in the throttle body, intake, manifold, etc.-Excessive oil collection can be an indicator of a damaged engine-Stainless steel filtration media is cleanable and reuseable-Lowers hydrocarbon emissions-Capacity: 7 fluid ounces-Height (without fittings): 5 inches-Outside Diameter: 2.45 inches INCLUDES-Billet aluminum oil catch can with integrated dipstick-Laser cut anodized E46 specific mounting bracket-Anodized aluminum 10AN hose ends and adapter fittings-Enough 10AN (5/8") PCV hose to work with modified vehicles-Stainless steel mounting hardware and hose clamps Instruction PDF
