Chargecooler Radiator for the BMW B48 & B58 Engine

Cena brutto	4 327,49 zł
Cena netto	4 327,49 zł
Dostępność	Na zamówienie
Numer katalogowy	379176550
Kod producenta	FMCCRAD11
Kod EAN	*5056721222561*

Opis produktu

- **Inlet temperatures lowered by 20°C (68°F)**
- An increase of over **100% extra capacity**
- **Triple pass water flow** meaning maximum cooling efficiency.
- Locates in the OEM position
- Improved cooling performance of the charged air.
- **Volume of 17 litres** compared to the OEM of just 7.71 litres.
- Made in the UK
- **Guaranteed for life**

With modern day aftermarket ECU tuning pushing powerful engines harder. In certain conditions the vehicle will run the risk of receiving inadequately cooled air affecting the engines efficiency and ultimately losing power. With this in mind, Forge are proud to present another PolarCooler as the first auxiliary cooling system for the BMW B48 & B58. Following **extensive testing** on the road and dyno working with 3 different styles of water core with different fin pitch configurations, we are proud to present **the ultimate in frontal water cooling** solutions.

This product is **designed, developed and manufactured entirely in Great Britain** and is covered by our worldwide lifetime warranty. We estimate that it will take around 4 hours to complete installation of this product. The cooler is 530mm x 471mm x 68mm compared to the OEM of 576mm x 495mm x 25mm.
