### Opis produktu

Keep your Hawkeye cool on the street or track with the all-new Mishimoto direct-fit oil cooler kit. A high horsepower Subaru needs a reliable and efficient means of reducing and maintaining proper oil temperatures. High engine temperatures can result in rapid oil degradation and potential engine damage. The Mishimoto oil cooler kit features a large 19-row oil cooler mounted behind the front bumper and grill for optimum airflow and cooling efficiency. This oil cooler kit adds .65 qt to the total oil capacity and substantially reduces temperatures with minimal pressure loss. The Mishimoto direct-fit oil cooler kit is available with a thermostatic sandwich plate for additional oil temperature control, and your choice of a stealth black or silver cooler. As with all our products, this kit includes the Mishimoto Lifetime Warranty. Direct fit for 2006-2007 Subaru WRX/STI 19-row oil cooler mounts behind front bumper and grill for optimum airflow. Premade braided stainless steel oil lines with durable -AN fittings. Stealth black and sleek silver cooler options. Mishimoto Lifetime Warranty.
