Cena poprzednia	3 084,34 zł
Dostępność	Na zamówienie
Numer katalogowy	331389699
Kod producenta	MMRAD-E90-07

Opis produktu

The E90 BMW is a great platform for soaking up highway miles during the weekday and taking to the track on the weekend. Aggressive driving results in increased engine temperatures necessitating an effective solution for keeping your straight six cool. Mishimoto has the perfect upgrade, the BMW 335i/135i Performance Aluminum Radiator, to eliminate rising temperatures. The Mishimoto 335i/135i radiator features all-aluminum construction with TIG-welded end tanks to a 100% brazed aluminum core and CNC-machined quick-disconnect inlet and outlet connections. This BMW radiator is constructed from high-quality aircraft aluminum with a brushed finish for the perfect combination of performance and style. The Mishimoto 335i/135i radiator is precision engineered for flawless drop-in fitment while providing a 35% increase in coolant capacity. This BMW radiator also includes a Mishimoto [Magnetic Oil Drain Plug](#) with dowty seal, which removes circulating metal fragments from the cooling system, providing further engine protection. As with all BMW parts, this aluminum radiator includes the Mishimoto Lifetime Warranty, ensuring superior product quality and craftsmanship. Say goodbye to the days of broken stock plastic inlet and outlet connections!

- Direct fit for the 2006-2013 BMW 335i and 2007-2012 BMW 135i
- Overall Size: 28.3" x 14.9" x 4.1" / Core Size: 23.62" x 13.78" / Rows: 2
