Opis produktu

Give the mighty Berra under the hood of your 2002-2008 BA BF Ford Falcon XR6 Turbo/V8 with a Mishimoto Performance Aluminum Radiator. Whether you're sporting the 4.0L turbo or the 5.4L V8, these engines are legendary for churning out mountains of power, which, in turn, means high temperatures that the stock unit can't keep up with. Mishimoto is here with a more durable, and efficient solution. For starters, we ditched the flimsy core and plastic end tanks for a full aluminum construction, TIG-welded for maximum durability. Our design also features a 1.57" thick, 2-row core for maximum cooling on the street, track, or drag strip. The Mishimoto 2002-2008 BA BF Ford Falcon XR6 Turbo/V8 Performance Aluminum Radiator is available in a polished finish and provides optimal cooling for both manual and automatic vehicles. This radiator also includes the Mishimoto Lifetime Warranty for a worry-free installation.
