### Opis produktu

Mishimoto has released a revolutionary new radiator for the automatic 1994–1995 Ford Mustang. The high torque generated by the Mustangs revealed a fatal flaw in the OEM design, where the torquing chassis would cause the OEM radiators to separate the endtanks from the cores. Utilizing a patent-pending floating bracket system, this radiator was engineered to eliminate the issues found in the OEM design while simultaneously adding cooling capacity and increasing efficiency. The new Mishimoto Mustang radiator is a direct fit and installs in about two hours with no cutting or trimming required. This aluminum radiator, like all Mishimoto Mustang radiators, comes with a 1.3 bar high-pressure radiator cap and is backed by our unparalleled Mishimoto Lifetime Warranty.

- Direct fit for the 1994-1995 Ford Mustang 5.0L with automatic transmission
- Patented stabilizer systems reduces radiator flex
- Overall Size: 34.8" x 20.5" x 4.2" / Core Size: 24.02" x 15.28" / Rows: 2
- TIG-welded aluminum radiator includes high-pressure rad cap and magnetic drain plug
- Mishimoto Lifetime Warranty
