Opis produktu

Mishimoto has released a revolutionary new radiator for the 1996 Ford Mustang. The high torque generated by the Mustangs revealed a fatal flaw in the OEM design, where the torquing chassis would cause the OEM radiators to separate the endtanks from the cores. Utilizing a patent-pending floating bracket system, this radiator was engineered to eliminate the issues found in the OEM design while simultaneously adding cooling capacity and increasing efficiency. The new Mishimoto Mustang radiator is a direct fit and installs in about two hours with no cutting or trimming required. As with all our aluminum radiators, this Mustang radiator includes the Mishimoto Lifetime Warranty, ensuring superior product quality and craftsmanship.

- Direct fit for the 1996 Ford Mustang 4.6L with manual transmission
- Patented stabilizer systems reduces radiator flex
- Overall Size: 34.8" x 19.2" x 4.2" / Core Size: 24.02" x 15.28" / Rows: 2
- TIG-welded aluminum radiator includes magnetic drain plug
- Mishimoto Lifetime Warranty
