Dostępność	**Na zamówienie**
Numer katalogowy	**331390713**
Kod producenta	**MMRAD-MIA-06**

Opis produktu

Every generation of the MX-5 Miata is a step closer to Mazda's motto to "celebrate driving," and the 2006-2015 NC MX-5 Miata is no exception. With its lightweight chassis and naturally-aspirated 2.0L engine, the NC MX-5 Miata is a blast to drive on the street or the track. While Mazda built the NC Miata to keep up with the daily-driving enthusiast, power-adding mods or prolonged time on the track can start to show the Miata's weak points.The front end of the NC may evoke the joy of driving, but it doesn't let a lot of airflow through the radiator. Even with a facelift in 2008, the larger grille still sits low on the front valence, limiting airflow. Without cuttings holes in your Miata's happy front bumper, the best solution is a more efficient radiator. That's why Mishimoto has developed this performance aluminum radiator for the 2006-2015 Mazda NC MX-5 Miata.The Mishimoto NC Miata radiator ensures your Miata stays cool whether you're carving the canyons or setting lap records at the track with a 114% increase in core volume and 51% increase in coolant capacity. The Mishimoto radiator also boast a core that is 112% thicker than stock with a 92% increase in fin surface area to make the most of the air coming through the grille. Like all our Miata performance products, this 2006-2015 Mazda NC Miata MX-5 Performance Aluminum Radiator is backed by our Mishimoto Lifetime Warranty for a lifetime of cooling.

This Part Fits:

Year	Make	Model	Submodel
