Chłodnica wody Mishimoto X-line Honda Civic 1992-2000

Cena brutto	1 692,00 zł
Cena netto	1 375,61 zł
Dostępność	Na zamówienie
Numer katalogowy	331389667
Kod producenta	MMRAD-CIV-92X

Opis produktu

A high-performance Civic demands a cooling system that can keep up on the street and the track. For applications requiring the most efficient heat exchanger, the Mishimoto X-Line Honda Civic Performance Aluminum Radiator provides three cooling rows packaged in a massive 2-inch thick core. The three-row design provides additional surface contact points for higher efficiency and lower temperatures. To provide additional cooling performance this radiator is constructed using a 100% brazed aluminum core with TIG-welded aluminum end tanks for superior heat dissipation, reliability, and strength. This performance radiator includes a Mishimoto 1.3 Bar High-Pressure Radiator Cap that effectively raises the boiling point of coolant to create a safer and more efficient system, perfect for your time attack EG or all-motor EK. The Mishimoto Honda Civic X-line aluminum radiator features a compact yet highly efficient design, making it perfect for custom applications where space constraints limit the use of traditionally sized aluminum radiators. Despite featuring a drastic increase in core size compared to stock, this aluminum radiator is a direct fit for the 1992-2000 Honda Civic and requires no modification for installation. As with all our aluminum radiators, this product includes the Mishimoto Lifetime Warranty, ensuring superior product quality and craftsmanship. Direct fit for 1992-2000 Honda Civic. Overall Size: 18.5" x 14.6" x 2.5" / Core Size: 13.78" x 14.09" / Rows: 3 / Inlet & Outlet: 1.26" / Core Thickness: 1.2" / Tank Wall Thickness: 0.08" All-aluminum construction includes high-pressure rad cap and magnetic drain plug. Mishimoto Lifetime Warranty
