Comp. Intercooler Kit EVOX Single Wagner Tuning for Audi RS3 8Y 2.5 TFSI

Cena brutto	9 159,98 zł
Cena netto	7 447,14 zł
Dostępność	Na zamówienie
Numer katalogowy	331503460
Kod producenta	WT-200001194.SINGLE

Opis produktu

Get ready to unleash your vehicle's full potential and experience a whole new dimension of performance and driving fun. Achieve impressive power gains and maximum vehicle performance with our state-of-the-art Wagner Tuning high-performance intercooler. Thanks to its impressive 600mm x 395mm x 135mm [stepped] (28.9L) intercooler core size, this intercooler offers a 127% larger flow area and an incredible 250% more charge air volume compared to the original. The newly developed Competition high-performance intercooler core provides sufficient airflow to adjacent components such as the water cooler, ensuring optimal cooling conditions. This high quality Tube Fin core with internal turbulators allows for even filling of the intercooler and achieves excellent cooling characteristics with minimal back pressure. This makes this kit perfect for racing and demanding driving conditions. Our intercoolers also feature an anti-corrosion coating, which not only ensures protection from the environment, but also provides long-lasting and optimal cooling with a significant increase in performance. The cast aluminum end boxes are specially optimized and have been perfected under flow analysis in the CFD system to ensure the best possible airflow. Thanks to the new Competition high-performance intercooler core, the sturdy unit comprising the intercooler and crossmember weighs just 18.0 kg, which has also contributed to the weight reduction. Installation is straightforward at the original mounting points and requires no additional effort (1:1 replacement). With a pressure test of up to 6 bar we prove the pressure stability and reliability of our products. During the development of this high-performance charge air cooler, the focus was on the best possible internal throughput with Ø82 mm inlets and outlets. This allows the airflow to be optimally directed and optimum performance to be achieved. Choose our competition high performance intercooler and experience an unparalleled increase in performance that will catapult you into a new world of driving pleasure. Our product stands for the highest quality and is subject to continuous qualitative monitoring to meet your demands. What are you waiting for? Discover the limits of your vehicle and exceed them with our Wagner Tuning high performance intercooler. EVO X COMPETITION INTERCOOLER for AUDI RS3 8Y. Optionally including charge and boost pipe Audi RS3 8V Sportback/Sedan 294KW/400hp 07/2021+. core dimensions OEM Intercooler: 640mm x 163mm x 80mm V=8,3 liter A=1043 cm² core dimensions Wagner Tuning EVO X Competition: 600mm x 395mm x 135mm [stepped].
