Comp. Intercooler Kit Single ACC-modul Wagner Tuning for BMW M 135i

Cena brutto	4 279,98 zł
Cena netto	3 479,66 zł
Dostępność	Na zamówienie
Numer katalogowy	331503454
Kod producenta	WT-200001191.ACC.SINGLE

Opis produktu

Optimize the performance of your BMW with our Wagner Tuning Competition high-performance intercooler! Want to unleash the full potential of your BMW? Our Competition high-performance intercooler is the answer to your performance needs and offers: Our intercooler sets new standards. With impressive intercooler core dimensions of 600 mm x 235 mm x 165 mm (stepped), it offers an astonishing 38% larger flow area and a substantial 78% more charge air volume compared to the standard intercooler. This results in a noticeable increase in power and a better overall driving experience. Our high performance Intercooler core is specially designed and stands out for its quality. It consists of a Tube Fin core with internal turbulators, which provides optimal airflow and heat dissipation. Although our intercooler is large, it weighs only 10.5 kg. This means that you can increase the performance of your BMW without increasing the weight, which has a positive effect on driving dynamics. Through extensive flow optimization in the CAD system, the cast aluminum end boxes of our intercooler ensure excellent cooling performance with minimal back pressure. This is crucial for efficient performance enhancement. All our charge air coolers are equipped with an anti-corrosion coating that not only prevents rust, but also has heat conduction properties. This provides durable and optimal cooling, which in turn improves performance. Our intercooler comes as a complete ready-to-install kit that allows for easy replacement with the stock intercooler - plug and play. It is still possible to use the original intercooler hoses. We subject all of our products to rigorous quality monitoring to ensure you receive only the best. It's time to take your BMW's performance to a new level. With our Competition high-performance intercooler, you can expect more power, better cooling and an overall improved driving experience. Experience the future of performance enhancement. Invest in quality and boost your BMW's performance with our Wagner Tuning Competition high-performance intercooler! Competition Intercooler Kit for BMW F40 M135i 225KW/306PS ab 2019 Core Dimensions original intercooler: 585mm x 175mm x 110mm V=11,3 Liter A=1024 cm² Core Dimensions Wagner Tuning intercooler: 600mm x 235mm x 165mm / gestuft V=20,1 Liter A=1410 cm² Weight: 6.21 kg Volume: 39.60 cm³/kg
