Comp. Intercooler Kit Wagner Tuning for Ford Ranger Raptor MK3 2.0 BiTDCI

Cena brutto	4 279,98 zł
Cena netto	3 479,66 zł
Cena poprzednia	4 401,78 zł
Dostępność	Na zamówienie
Numer katalogowy	331503451
Kod producenta	WT-200001190

Opis produktu

Discover the new benchmark in high performance charge air coolers with our impressive model.

With impressive intercooler core dimensions of 650mm x 368mm x 95mm (stepped) and a voluminous total capacity of 20.8 liters, the Wagner Tuning high performance intercooler offers a 48% larger flow area and an impressive 108% more charge air volume compared to the original. Experience the power of improved cooling and feel the performance boost in your vehicle.

Our innovative Competition high-performance intercooler core allows unobstructed airflow to adjacent components like the water cooler, ensuring optimal cooling. The high-quality Tube Fin core with internal turbulators ensures efficient heat transfer. The intercooler's end boxes have been carefully crafted from cast aluminum and optimized using CFD flow analysis. Strategically placed air baffles in the inlet area ensure uniform filling of the intercooler. The result is outstanding cooling properties with minimal back pressure. This kit is perfect for racing and will exceed your expectations. All of our intercoolers feature a high quality anti-corrosion coating with excellent heat conduction properties. As a result, we guarantee a durable and optimal cooling performance, which is accompanied by a significant increase in power. The combination of our new Competition high-performance core and the crossbar forms a stable unit that is particularly remarkably light, weighing only 12 kg. It mounts effortlessly to the original mounting points and requires no extensive modification. Our high performance intercooler has been pressure tested up to 6 bar and has proven to be absolutely pressure stable. For us, the quality of our products is our top priority, which is why they are subject to continuous, stringent quality monitoring.

With optimized internal flow rates and Ø 66 mm inlets and outlets, this high-performance intercooler provides the best possible airflow for optimal power delivery. Prepare to unleash the full power of your vehicle and enjoy a driving experience that pushes all limits. Choose our high performance intercooler and experience the future of performance and power.

Fits the following model:
Ford Ranger Raptor 157KW/213hp 05/2019+

core dimensions OEM Intercooler:
645mm x 250mm x 62mm
V=10,0 liter
A=1612 cm²

core dimensions Wagner Tuning EVO X Competition:
650mm x 368mm x 95mm [stepped].
V=20.8 liters
A=2392 cm²

Part number: 200001190
Kit comes with:
1 intercooler
2 silicone hoses

1 mounting material
1 installation instruction

Weight: 19.50 kg
Volume: 41.00 cm³/kg
