Kod producenta	WT-200001044

Opis produktu

Discover the Competition Intercooler EVO 2 for your BMW 3 Series (E90/E91/E92/E93) - High performance redefined!

Do you want to take the performance and efficiency of your BMW 335i (N54) to the next level? Then our Competition Intercooler EVO 2 is the ideal choice. This kit is specifically designed to meet the exacting requirements of BMW N54 & N55 engines and provide you with an incredible performance boost.

Our Competition Intercooler EVO 2 sets the standard with net dimensions of 520x210x150 (13,572 cc). This means an impressive 85% larger flow area and an incredible 90% more charge air volume compared to the factory intercooler. Feel the power and acceleration your BMW deserves.

Our high performance intercooler core is a high quality Tube Fin core with internal turbulators. Despite its impressive size, the total weight of the intercooler is only 7.4 kg. The end boxes are made of high quality cast aluminum and have been optimized using CFD flow analysis. The original click connections have been eliminated and the connection diameters at the inlet and outlet have been expanded to Ø70 mm. The kit also includes 2 reinforced silicone hoses.

Our EVO 2 intercooler offers outstanding cooling properties while minimizing back pressure. This is crucial for optimum performance. All of our intercoolers feature an anti-corrosion coating with heat conduction properties that ensures long-lasting and optimal cooling. The kit is completely ready to install and replacing the factory intercooler is easy. It has been tested up to 6 bar and is pressure stable. Like all of our products, the Competition Intercooler EVO 2 is subject to constant qualitative monitoring to ensure the highest standards.

Prepare to rule the road with your BMW 335i (N54). Boost your vehicle's performance, acceleration and handling with our Competition Intercooler EVO 2. Whether you're on the track or conquering the streets, this kit will redefine your BMW's performance.

Upgrade your BMW 335i (N54) with confidence. Experience the power your BMW deserves!

In order for our EVO 2 version to fit all specified vehicles, minor customization work is required. For vehicles with M package, additional adjustment work on the underbody panel is necessary.

The Competition Intercooler Kit EVO 2 fits in the following vehicles with N54 & N55 engines:

BMW 335 (x)i E90/E91/E92/93 2006-2011*

BMW 335is E92 2009-2013*

BMW 135i E82/E88 2008-2013 *

BMW 1 series M E82 2011-2013 *

* (Rework on radiator support required)

Part number 200001044
Kit comes with:
1 intercooler (black coated)
2 silicone hoses
1 aluminum adapter
1 mounting material
1 assembly instruction
