Kod producenta	WT-200001107

Opis produktu

Revolutionary performance for your Audi RS3 8V / 8Y and TTRS 8S - The Competition High Performance Intercooler Kit EVO1.

Ready to give your Audi RS3 8V an impressive performance boost? The Competition High Performance Intercooler Kit EVO1 is the answer you've been waiting for. With cutting-edge technology and a custom design, this kit delivers an exhilarating driving experience.

This high performance intercooler redefines performance. With intercooler core dimensions of 660x180x110 mm and a core volume of 13,070 cc, it offers an impressive 14% larger flow area and an astonishing 57% more charge air volume compared to the stock intercooler. The result? An explosive increase in power and exceptional cooling capacity. Our intercooler features a high-quality Tube Fin core that uses internal turbulators to optimize airflow. Despite its impressive size, this cooler weighs only 8.3 kg, which means you get more power without the added weight.

Our cast aluminum end boxes were designed in the CAD system and optimized with flow analysis in the CFD system to perfect the internal airflow. The result is excellent cooling characteristics with minimal back pressure.

Our kit is a completely ready-to-install package that allows easy replacement of the stock intercooler - a true plug-and-play experience. No complex customization required.

All of our intercoolers are equipped with an anti-corrosion coating that not only protects against environmental influences, but also offers excellent heat conduction properties. This ensures a constant and optimal cooling performance, accompanied by a significant increase in power.

Our product has been tested for load capacity up to 6 bar to provide you with the highest level of reliability.

For us, quality comes first. All our products undergo rigorous qualitative monitoring to ensure they meet the highest standards.

Designed specifically for racing, this kit provides the performance and reliability you need to excel on the track.

Make your performance dreams come true with the Competition High Performance Intercooler Kit EVO1. Get the most out of your Audi RS3 8V now and experience a new dimension of driving pleasure!

Competition intercooler kit EVO1 for Audi RS3 8V / 8Y and TTRS 8S Suitable for:

Audi RS3 8V Sportback 270KW/367PS 04/2015-04/2016

Audi RS3 8V Sportback/Sedan 294KW/400PS 08/2017+

Audi RS3 8Y Sportback/Sedan 294KW/400PS 2021+

Audi TTRS 8S 294KW/400PS 11/2016+

Audi RSQ3 F3 294KW/400PS 10/2019+

Dimensions original intercooler:

640mm x 163mm x 80mm

V=8,3 liter

A=1043 cm²

Wagner Tuning intercooler dimensions:

660mm x 180mm x 110mm

V=13,07 Liter

A=1188 cm²

Part number200001107

Kit comes with:

1 intercooler (black coated)

1 assembly instruction
