Opis produktu

Unleash the true power of your Audi S2/RS2 with our Competition EVO2 Gen.2 intercooler kit and short intake manifold!

Dive into a world of high performance with our revised Competition EVO2 Gen.2 intercooler kit, specifically designed for the Audi S2/RS2 in conjunction with our short intake manifold. This kit isn't just an update.

Our high performance intercooler not only provides an 18% larger flow area, but also 65% more intercooler volume compared to the original RS 2 intercooler. The newly developed Competition high-performance intercooler core uses the most advanced tube-fin technology to ensure optimal cooling of your supercharged air. The result? A performance boost you can feel.

The end boxes of our intercooler are made of cast aluminum and have been optimized through flow analysis in the CAD system. This ensures not only a perfect fit, but also efficient airflow, which is critical to performance.

Our kit is designed to replace the OEM intercooler, making installation effortless. No complicated processes, no lengthy adjustments - just pure power once the kit is installed.

We're all about peak performance. Our Competition EVO2 Gen.2 Intercooler Kit is designed to exceed expectations and give you a driving experience unlike any other.

Prepare to dominate the road and unleash the full power of your Audi S2/RS2. Order your Competition EVO2 Gen.2 intercooler kit with short intake manifold now and experience the performance revolution.

Your vehicle, our passion - together on the road to unparalleled power.

Comp. intercooler kit EVO2 Gen.2 Audi 2.2 20V Turbo

Part number 200001014

Kit comes with :
