Competition Intercooler Kit Wagner Tuning EVO3 for Audi RSQ3 F3

Cena brutto	8 649,00 zł
Cena netto	7 031,71 zł
Cena poprzednia	8 895,11 zł
Dostępność	Na zamówienie
Numer katalogowy	331140335
Kod producenta	WT-200001167

Opis produktu

Improve the performance of your vehicle with our high performance intercooler!

Our high-performance intercooler sets new standards and takes your driving dynamics to a new level. With the impressive intercooler mesh dimensions of 515mm x 367mm x 95mm (stepped) and a total volume of 16,500 cm³, it offers an incredible flow area that is 84% larger than the standard intercooler. That means an amazing 101% increase in charge air volume.

Our newly developed competition high-performance core ensures optimal air supply to adjacent components such as the water cooler. With its high-quality tube fin core and internal turbulators, it ensures efficient cooling. The cast aluminum end boxes have been optimized with the help of flow analyzes in the CFD system to ensure the best cooling properties with minimal back pressure. The integrated air baffles in the inlet ensure that the intercooler is filled evenly. This kit was specially developed for racing and offers optimal cooling of the charged air with a significant increase in performance. All our intercoolers are equipped with a high-quality anti-corrosion coating with excellent thermal conductivity properties. This ensures a permanent and optimal cooling effect. Despite its high performance, our intercooler is surprisingly light thanks to the new Competition high-performance core and forms a stable unit with the original crossbar. The total weight is only 11.7 kg.

Installation is effortless at the original mounting points and is supported by our detailed installation instructions. Thanks to the high pressure stability tested up to 6 bar, you can count on the reliability of our product. Quality is our top priority, which is why all our products are subject to continuous quality monitoring.

The advantages at a glance:

- •- Impressive increase in performance for your vehicle
- •- Larger inflow area for optimal cooling performance
- •- High-quality competition high-performance intercooler core with internal turbulators
- •- Light weight with high stability
- •- Easy to mount on the original mounting points
- •- Excellent heat dissipation thanks to anti-corrosion coating
- •- Tested and pressure stable up to 6 bar

Take your vehicle's performance to the next level with our high performance intercooler. Enjoy optimal cooling and impressive performance at every race!

Wagner Tuning Competition Intercooler Kit EVO3 for Audi RSQ3 is suitable for the following models:
Audi RSQ3 F3 294KW/400PS 10/2019+

core dimensions OEM intercooler:
cooling surface 1024cm²(158,7Inch²)
charge-air-volume 8,2L (500,4Inch³)

core dimensions Wagner Tuning EVO 3 Competition:

cooling surface 1890cm² (293Inch²)
charge-air-volume 16,5L (1006,9Inch³)

Part number: 200001167

kit comes with:

1 intercooler including crossmember

1 mounting material
