### Opis produktu

Discover the new dimension of performance with the Wagner Tuning EVO3 Competition Intercooler Kit for BMW M135i AND M235i!

Maximize the performance of your BMW M135i or M235i with the revolutionary Wagner Tuning EVO3 high performance intercooler kit. Designed for the most demanding tuning levels, this intercooler offers breakthrough performance. The intercooler core dimensions of 510mm x 345mm x 180mm (stepped 23.56L) guarantee an impressive 165% larger flow area and a whopping 223% more charge air volume compared to the stock cooler.

First class technology for maximum performance! The Competition high-performance intercooler core relies on high-quality Tube Fin technology with internal turbulators. Despite its considerable size, the intercooler is lightweight and weighs only 13.8kg. The cooler's cast aluminum end boxes have been optimized through CFD flow analysis to ensure outstanding cooling characteristics with minimal back pressure.

Components for extreme performance! The EVO3 kit was specifically designed to meet the requirements of the large tuning levels on the BMW M135i and M235i. The original click connections have been eliminated and the connection diameters have been increased to Ø65mm at the inlet and Ø76mm at the outlet. The kit includes two reinforced silicone hoses and an aluminum charge air pipe in Ø76mm. The result: Optimal cooling of the charged air and a marked increase in performance!

High quality construction for durability! Our charge air coolers are provided with an anti-corrosion coating, which at the same time has excellent heat conduction properties. This guarantees a lasting and optimal cooling effect with a noticeable increase in performance. The kit is completely ready to install and includes a modified crossmember. A simple exchange against series parts is possible, although minor adjustments to the radiator support are necessary due to the extreme size.

No more compromises - pure performance! The Wagner Tuning EVO3 Competition Intercooler Kit has been tested up to 6 bar and is absolutely pressure stable. Our products are subject to continuous qualitative monitoring to ensure the highest standards. The kit is ideally suited for racing and sets new standards in terms of performance.

Enrich your driving expertise and feel the power of progress. Get the Wagner Tuning EVO3 Competition Intercooler Kit for your BMW M135i or M235i now!

The BMW Competition Intercooler Kit EVO III from Wagner Tuning fits to the following cars with & N55 engine:

BMW F20 / F21 M135i 235-240KW/320-326PS (2011-2016)

BMW F22 M235i F22 240KW/326PS (2014-2016)

BMW F87 M2 272KW/370PS (2015-2018)

core dimensions stock intercooler:

510mm x 130mm x 110mm / 20Inch x 5,1Inch x 4,3Inch

V=7,3 Liter / 445,3 Inch<sup>3</sup>

A=663 cm<sup>2</sup> / 102,7 Inch<sup>2</sup>

---

core dimensions Wagner Tuning intercooler:

510mm x 345mm x 180mm [stepped] / 20Inch x 13,6Inch x 7,09Inch [stepped]

V=23,56 Liter / 1437,7 Inch<sup>3</sup>

A=1759,5 cm<sup>2</sup> / 272,7 Inch<sup>2</sup>

Part Number 200001144:

kit comes with:

- 1 intercooler black
- 1 Ø76mm charge pipe
- 1 external air shroud
- 2 silicone hoses, HD
- 1 aluminum adapter
- 1 cross member
- 1 mounting material
- 1 installation instructionc
