Competition Intercooler Kit Wagner Tuning for Hyundai I30 / Kia Cee'd

Cena brutto	3 436,50 zł
Cena netto	2 793,90 zł
Numer katalogowy	WT-200001094

Opis produktu

Maximum performance and cooling - The high-performance charge air cooler. Ready to boost your vehicle's performance? Our high performance intercooler is the solution you're looking for. Designed for demanding drivers who want peak performance and optimal cooling. With core dimensions of 300mm x 350mm x 125[65]mm, this intercooler offers an impressive 100% larger flow area and a whopping 117% more charge air volume compared to the stock cooler. This means that your engine will get more air, resulting in a noticeable increase in power. Despite its impressive performance, this high-performance intercooler only weighs a lightweight 7.1 kg. The newly developed Competition high-performance intercooler core is lightweight yet extremely efficient. The end boxes of the intercooler are made of high-quality cast aluminum and have been carefully analyzed in the CAD system to maximize internal airflow. Incorporated air baffles in the inlet ensure uniform filling of the intercooler. The connection diameters at the inlet and outlet have been expanded to a generous $\varnothing 50 / \varnothing 60$ mm. Our kit includes two reinforced silicone hoses that provide excellent cooling with minimal back pressure. Designed specifically for racing, this kit provides optimal cooling for supercharged air, resulting in a significant increase in performance. It mounts effortlessly to the original mounting points. It is a 1:1 replacement that does not require extensive modifications. Our products undergo rigorous qualitative monitoring procedures to ensure they meet the highest standards. If you are looking to optimize your vehicle's performance and cooling, our high performance intercooler is the right choice. Feel the difference and experience an exhilarating ride with maximum performance. Get your high performance intercooler today and take your vehicle to a new level.

Competition Intercooler Kit for Hyundai I30 1,6 T-GDI and Kia Cee'd GT 1,6T-GDI
 stock Intercooler core: cooling surface 522cm² charge air volume 4,7L
 Wagner Tuning intercooler core: cooling surface 1050cm² charge air volume 10,2L
 Part number 200001094
 packing list: 1 intercooler painted black
 2 silicone hoses
 4 hose clamps
 1 installation instruction
