Competition Intercooler Kit Wagner Tuning for Nissan GT-R 35 11-16

Cena brutto	14 964,00 zł
Cena netto	12 165,85 zł
Numer katalogowy	WT-200001106

Opis produktu

Revolutionary performance for your Nissan GT-R R35 - The Competition High Performance Intercooler Kit. Ready to give your Nissan GT-R R35 an impressive performance boost? The Competition High Performance Intercooler Kit is the answer you've been waiting for. With cutting-edge technology and a custom design, this kit delivers an exhilarating driving experience. These Competition high performance intercoolers set a new standard. With core dimensions of 2x (360mm x 294mm x 110mm) per cooler, equating to 23.3 liters in total, they offer an impressive 76% larger flow area and an astonishing 94% more charge air volume compared to the original intercoolers. This translates into an explosive increase in power and exceptional cooling capacity. Our high performance intercooler core offer remarkable cooling performance. Despite their impressive size, both intercoolers together weigh only 2x 9.1 kg, which means additional power without unnecessary weight. The cast aluminum end boxes were developed in the CAD system and optimized under flow analysis in the CFD system to perfect the internal airflow. The connection diameters at the inlet and outlet were expanded to Ø70 mm, which is why the kit includes two reinforced silicone hoses. The result? Excellent cooling properties with minimal back pressure. This intercooler kit includes matching carbon air guides to ensure that the intercoolers are optimally flowed. With a tested pressure rating of up to 6 bar, this kit is suitable for racing. It is designed to excel in the most demanding conditions. All of our intercoolers are equipped with an anti-corrosion coating that not only protects against environmental influences, but also provides excellent heat conduction properties. This guarantees a constant and optimal cooling performance, accompanied by a significant increase in power. You get a completely ready-to-install kit that makes installation a breeze. No time-consuming adjustments are required. For us, quality comes first. All of our products undergo rigorous qualitative monitoring to ensure they meet the highest standards. Make your performance dreams come true with the Competition high performance intercooler kit. Get the most out of your Nissan GT-R R35 now and experience a new dimension of driving pleasure!

COMPETITION INTERCOOLER KIT NISSAN GT-R35
 Part number: 200001055, 200001106
 Nissan GT-R 2011-2012 390KW/530HP
 Nissan GT-R 2012-2016 404KW/550HP
 Part number: 200001106
 Part number 200001106
 Kit comes with: 2 intercooler black powder coated
 4 cast aluminum connectors
 2 silicone hoses
 1 carbon air duct
 1 mounting material
 1 assembly instruction
