Competition Intercooler Kit Wagner Tuning for Nissan GT-R 35 2008-2010

Cena brutto	16 299,00 zł
Cena netto	13 251,22 zł
Cena poprzednia	16 762,79 zł
Dostępność	Na zamówienie
Numer katalogowy	331140156
Kod producenta	WT-200001055

Opis produktu

Exceed all expectations with our Competition high performance intercooler kit for the Nissan GT-R R35!

Our Competition high performance intercoolers for the Nissan GT-R R35 set new standards. With core dimensions of 2x (360 mm x 294 mm x 110 mm) and an impressive charge air volume of 23.3 liters, these intercoolers offer a huge 76% larger flow area and an incredible 94% more charge air volume compared to the factory intercoolers.

The Competition high performance intercooler core provides outstanding cooling characteristics and ensures your Nissan GT-R is always pulling optimal power.

The cast aluminum end boxes of our intercoolers were developed in the CAD system and optimized using flow analyses in the CFD system. The connection diameters at the inlet and outlet have been extended to Ø70 mm, which is why our kit comes with reinforced silicone hoses.

Our intercooler kit includes matching carbon air ducts that ensure optimal flow to the intercoolers, providing outstanding cooling performance with minimal backpressure.

Our high performance intercoolers have a tested pressure rating of up to 6 bar, making them perfect for racing.

All of our intercoolers feature an anti-corrosion coating that provides excellent heat conduction properties. This guarantees permanent and optimal cooling, which is noticeable in a noticeable increase in performance.

Our kit is completely ready to install and allows for easy replacement with the factory intercoolers.

All of our products undergo strict qualitative monitoring procedures to ensure the highest standards.

Your Nissan GT-R R35 deserves the best! With our Competition high-performance intercooler kit, you'll take your GT-R's performance to a new level and dominate the road.

Prepare to push the limits of your Nissan GT-R R35 and experience a driving experience like never before!

Part number 200001055

Kit comes with:

- 2 intercoolers black powder coated
- 4 cast aluminum connectors
- 2 silicone hoses
- 1 Carbon air duct
- 1 mounting material
- 1 assembly instruction
