Cena brutto	4 266,87 zł
Cena netto	3 469,00 zł
Numer katalogowy	WT-200001091

Opis produktu

High performance for your Opel Insignia with the Der Wagner Tuning Competition intercooler. Are you looking for the ultimate performance upgrade for your Opel Insignia 2.8 V6 Turbo 4x4? Then our Competition high-performance intercooler is the perfect choice. Here's what you can expect from this powerful upgrade. With core dimensions of 610mm x 440mm x 65mm and an impressive total volume of 17,446cc, this intercooler offers a 10% larger flow area and an incredible 138% more charge air volume compared to the factory intercooler. Our Competition high performance intercooler core is specifically designed to provide optimal cooling performance. It ensures that your supercharged air stays as cool as possible, even under extreme conditions. Despite its impressive performance, our intercooler is surprisingly lightweight, weighing just 9.75 kg. This minimizes additional ballast and provides improved performance. Our free-form cast aluminum end boxes were designed in CAD and feature internal air baffles. This ensures optimal internal airflow, which provides uniform charge air cooler fill. All of our intercoolers are equipped with an anti-corrosion coating that provides excellent heat conduction properties. This ensures not only durable cooling, but also optimal cooling, resulting in an impressive increase in performance. Our intercooler kit is completely ready to install and can be easily replaced with the factory intercooler. Installation is straightforward and happens quickly. Our intercooler has been tested up to 6 bar and is extremely pressure stable. This makes it the ideal choice for racing. With a connection diameter of 70mm, our intercooler offers optimal airflow for your high performance needs. Like all our products, this intercooler is subject to strict qualitative monitoring. You can be sure that you will receive a product of the highest quality. Prepare your Opel Insignia for a new level of performance. Install our Competition high-performance intercooler today and experience the power it unleashes. For more information and to place an order, visit our website.
