Opis produktu

new product- beginning 2022! Competition INTERCOOLER KIT for Porsche 992 Turbo (S)Item no.: 200001181The Wagner Tuning Porsche 991 911 Turbo (S) Intercooler Kit has the following core size (2 x [300mm x 286mm x 110mm] = 18,9L)/(2x[11,8Inch x 11,26Inch x 4,33Inch = 1050,64Inch³), providing 40% more volume compared to the stock mounted intercooler. Our engineers have increased the intercooler core size and efficiency, as well as improved the end tank design to remove any OEM bottlenecks, resulting in increased flow rating and charge cooling properties. This intercooler Kit uses a new developed Wagner Tuning Competition Intercooler Core which is made specifically for this application. It is one of the highest quality Tube Fin cores available on the market. The intercooler has just a weight of 9,5kg. Flow analyses and simulations were created to optimise the design for best possible Internal Airflow. The Intercooler Kit also includes 4pcs suitable carbon air shroud to ensure optimum airflow to the intercooler. This intercooler kit is the best choice when it comes to performance gains and low intake temperatures. Anti Corrosion protective Coating with perfect thermal heat dissipating character. Optimal cooling with clearly more power. Kit is ready for installation. Fitment is easy, replacing the OEM intercooler. All of our products undergo rigorous quality control and are also tested by compressive strength of up to 6 bar. This intercooler kit is suitable for racing. Stock Intercooler: V = 13,5 L A = 1436 cm²WAGNERTUNING Intercooler: V = 18,9 L (+40%)A = 1716 cm² (+18%) Intercooler Upgrade Kit for:Porsche 992.1 911Turbo 427KW/580PS (2020-)Porsche 992.1 911Turbo S 478KW/650PS (2020-)Kit comes with:1 Intercooler black4 Carbon air shrouds1 Mounting Material1 Installation Instruction
