Cena brutto	2 799,00 zł
Cena netto	2 275,61 zł
Numer katalogowy	WT-200001110

Opis produktu

Get the most out of your Subaru WRX STI with the Wagner Tuning high performance intercooler kit. Ready for an exhilarating driving experience that takes the performance of your Subaru WRX STI to a whole new level? Our Wagner Tuning High Performance Intercooler Kit is the answer to your dreams. With cutting-edge technology and custom design, this kit provides an impressive performance boost and an unforgettable driving experience. Our high-performance intercooler features an innovative Competition intercooler core (Tube Fin) that is specifically designed to meet the needs of your Subaru WRX STI. With impressive dimensions of 530 mm x 220 mm x 95 mm (11.08 liters), this high-performance intercooler core offers a whopping 30% more core volume and an impressive 100% more charge air volume compared to the stock intercooler. The result: a significant increase in power and cooling capacity. Our cast aluminum end boxes were designed in the CAD system and optimized using CFD simulations to perfect the internal airflow. The intercooler inlets and outlets were not changed in the process, and the backpressure is the same as the stock intercooler. This means that seamless integration and easy installation are ensured without the need for complex adjustments. Our intercoolers are equipped with an anti-corrosion coating that not only protects against environmental influences, but also offers excellent heat conduction properties. This means you can expect long-lasting and optimal cooling performance. Installation is done by replacing the OEM intercooler and is easy to do (plug and play). Each of our products is subject to strict qualitative monitoring to ensure that they meet the highest standards. Boost the performance of your Subaru WRX STI and experience a whole new dimension of driving pleasure. With the Wagner Tuning high performance intercooler kit, you'll be ready for the street and the track.
