Opis produktu

Unleash the full potential of your vehicle with the Competition high-performance intercooler.

With its impressive technical data, this intercooler sets new standards in terms of performance and cooling.

The Competition high-performance charge air cooler impressed with generous net dimensions of 550 mm x 445 mm x 70 mm, which corresponds to a total volume of 17,130 cm³. This impressive size means that it offers a 134% larger inflow area and a 105% increase in charge air volume compared with the standard intercooler. The high-quality Tube Fin mesh with internal turbulators ensures optimum airflow and maximum cooling performance. Despite its imposing dimensions, the total weight of the intercooler is just 9.5 kg, resulting in weight savings and improved vehicle dynamics.

The cast aluminum end boxes of the charge air cooler were optimized with the aid of flow analyses in the CFD system to achieve outstanding cooling performance with minimal backpressure. The connection diameters at the intercooler inlet are Ø62 mm and at the intercooler outlet Ø67 mm to ensure optimum flow efficiency.

Another highlight is the anti-corrosion coating with excellent heat conduction properties that is added to all our charge air coolers. This ensures lasting and optimal cooling with a significant increase in performance. The intercooler kit is completely ready to install and can be easily replaced with the stock intercooler - simply plug and play. It has been tested up to 6 bar and is pressure stable, so you can rely on its reliability. Our products are subject to constant qualitative monitoring to ensure the highest standards. The Competition high performance intercooler is specifically designed for racing and opens up a new dimension of performance for you.

Take your vehicle to the next level with the Competition High Performance Intercooler. Experience impressive cooling performance, improved power delivery and outstanding reliability on every ride.

Competition intercooler kit for Audi A6/A7 C8 fits the following vehicles:

Audi A6 C8 45TDI 170KW/231PS (2018+).

Audi A6 C8 50TDI 210KW/286PS (2018+)

Audi A7 C8 45TDI 170KW/231HP (2018+)

Audi A7 C8 50TDI 210KW/286PS (2018+)

core Dimensions original intercooler:

720mm x 145mm x 80mm

V=8,35 liter

A=1044 cm²

core Dimensions Wagner Tuning intercooler:

550mm x 445mm x 70mm

V=17,13 Liter

A=2447 cm²

Part number: 200001156
Kit Comes with:
1 intercooler (black coated)
1 silicone hose (black)
1 mounting material
1 assembly instruction
