Competition Package EVO2 BMW E-series N54 engine

Cena brutto	6 960,00 zł
Cena netto	5 658,54 zł
Numer katalogowy	700001009

Opis produktu

The Competition Package for the BMW E-series consists of the Intercooler Upgrade Kit EVO2 and the N54 Downpipe Kit and fits the following vehicles. BMW 135i E82/E88*BMW 1er M E82*BMW 335(x)i E90/E91/E92/E93** Note:-So that our EVO II version fits in all specified vehicles, a little adaptation work needed. (Explanation)Intercooler Upgrade Kit 200001044This Competition Intercooler has the following core size (520mm x 210mm x 150mm / stepped = 13,572 cm³), providing a 85% larger frontal area and 90% more volume compared to the original intercooler. Our engineers have increased the intercooler core size and efficiency, as well as improved the end tank design to remove any OEM bottlenecks, resulting in increased flow rating and charge cooling properties. WAGNERTUNING Competition Core with high cooling performance and light weight (7,4kg) combined with cast aluminum optimized by CAD. Flow analyses and simulations were created to optimise the design for best possible internal airflow. This intercooler is the best choice when it comes to performance gains and low intake temperatures. A lot less pressure drop than OEM Intercooler. Anti corrosion protective coating with perfect thermal heat dissipation character. Optimal cooling with clearly more power. Kit is ready for installation, 100% perfect fit. Fitment is easy, replacing the OEM intercooler. All of our products undergo rigorous quality control. Downpipe kit BMW N54 Engine true 70mm Downpipes made from 1.4301 (SS304) stainless steel no catalytic converters*1:1 exchange to OEM units CAD designed for track and tested with flex part*ECU will need to be coded to avoid engine management light errors.
