Opis produktu

A set of four Forge Motorsport hoses for the Ford Ecoboost 1.0 engine which replace the upper and lower radiator hoses, together with the upper and lower header tank hoses (the lower hose is in two pieces from Ford, but we have made it in one piece). This set is available in blue, black and red

- The Forge silicone hoses in this kit have been designed to include an expensive inner liner of modified silicone known as Fluorosilicone.
- This means the hoses are suitable to be used with either modern long-life coolants, Organic Acid Technology coolants (O.A.T.) or air containing oil mist.
- The construction of the hoses has been engineered to exceed that of the OEM fitments, and will enhance any engine bay both technically and aesthetically
- The use of a Fluorosilicone liner ensures that Forge silicone hoses are the clear market leader.
- Lifetime warranty*
