Dedykowany oil catch tank Mishimoto Ford Focus ST 2013-2018

Cena brutto	1 017,25 zł
Cena netto	827,03 zł
Cena poprzednia	1 130,28 zł
Dostępność	Na zamówienie
Numer katalogowy	331387989
Kod producenta	MMBCC-FOST-13PBE

Opis produktu

The Mishimoto Focus ST Baffled Oil Catch Can is designed and engineered to reduce carbon buildup, a common issue with direct fuel injection engines. Mishimoto engineers found that in most vehicles, placing the catch can in the vacuum assisted PCV system of the vehicle will yield the most amount of oil accumulation during normal and aggressive driving. While a catch can placed on the crankcase vent system on the left side of the engine will yield very little accumulation on stock or lightly modified vehicles. Having only one catch can, tied into the PCV system, will work the best for the vast majority of Ford Focus STs on the road.

The Mishimoto Focus ST catch can kit uses the Mishimoto [2-Port Compact Baffled Oil Catch Can](#) with a bronze filter, and internal baffle to better separate the oil from the crankcase vapors. The kit comes with two direct-fit silicone hoses that connect the catch can with the crankcase and intake manifold. This kit also includes one application specific mounting bracket that not only is extremely easy to install but also mounts the can in a serviceable location, right next to the engine's oil drain plug! Two plastic, 3/8" barb fittings connect the hoses to the can. Like all of our products, this baffled catch can kit comes with the Mishimoto Lifetime Warranty!

Our catch cans are different from most air-oil-separator (AOS) systems on a few levels. First, our catch cans are not heated. This means that all of the blow-by is able to condense in the can, including low-octane oil vapors and contaminated fuel vapors. Most AOS systems also drain the blow-by back into the oil pan, while our catch cans trap the blow-by and keep it out of the engine permanently. If you've seen what we've seen in the bottom of our catch cans, you won't want that draining back into your oil either.

- Direct-fit for 2013+ Ford Focus ST
- Single can mounts in line with PCV system
- Direct-fit brackets mount can next to transmission
- Internal air diverter turbulates air longer to improve oil separation
- Mishimoto Lifetime Warranty
