Cena brutto	2 188,99 zł
Cena netto	1 779,67 zł
Numer katalogowy	MMAI-FOST-13P

Opis produktu

Do want power, styling, and durability? The Mishimoto Focus ST intake has them all. With dyno proven maximum gains of 6 whp and 5 wtq, this Focus ST intake offers a respectable boost in power for running only the stock tune. The 3" mandrel-bent aluminum pipe offers superior airflow and styling, as it's available with a polished or wrinkle black powder-coat finish. We like to keep things cool here at Mishimoto, so the black powder-coated airbox keeps that unwanted hot air from entering the air filter. The airbox also utilizes the stock cool air duct, to help drop air intake temperatures even more. This Focus ST intake kit includes everything that you need for a direct-fit installation, even a IAT adapter to fit the 2016 model. The Mishimoto Lifetime Warranty will make sure all your Mishimoto Focus ST parts are performing perfectly!Mishimoto Lifetime Warranty
