Dedykowany układ dolotowy Mishimoto Mercedes-Benz CLA45 AMG 2014-2019

Cena brutto	2 549,00 zł
Cena netto	2 072,36 zł
Numer katalogowy	MMAI-CLA45-14BK

Opis produktu

Mishimoto has developed a performance air intake engineered specifically for the 2014+ Mercedes CLA45 AMG! This CLA45 intake features numerous innovative components, including a silicone turbo inlet hose that contains a co-molded CNC block for the stock sensors and breather ports! The silicone inlet hose was designed with smooth contours and transitions for maximum airflow compared to the stock rubber hose. The combination of this silicone inlet hose and our free-flowing Mishimoto air filter translated to massive gains of 20 whp and 17 wtq at 5900RPM! This CLA45 AMG intake is safe to use with the stock tune as it will not hurt air/fuel ratios under load. This intake has a unique and aggressive tone under acceleration and boost, and the free-flowing design amplifies turbocharger spool and BPV sounds. Check out the video to hear the tone. The stock CLA45 intake duct is utilized to provide cool airflow to the Mishimoto High-Flow Oiled Air Filter, which features increased filtration surface area compared to the stock paper filter. This filter can be cleaned and reused, providing a lifetime of service. The intake includes an enclosed airbox that collects all of the cold outside air from the front of the engine. The airbox is made from 5052 aluminum with a black powder-coated finish to reduce weight compared to a steel intake box, and to prevent against any corrosion. The airbox also protects against engine bay heat-soak, and it provides a stock-like engine bay appearance. This CLA45 AMG intake is a complete bolt-on that functions perfectly with the stock tune and can be installed in one hour using common hand tools. This kit includes the Mishimoto Lifetime Warranty, ensuring superior product quality and craftsmanship. Direct fit for 2014+ Mercedes CLA45 AMG. Dyno-proven gains of up to 20 whp and 17 wtq on stock tune. 4" filter operates at up to 2,000 CFM and eliminates restrictive stock intake. Turbo inlet hose features CNC-machined ports and reinforcement rings. Mishimoto Lifetime Warranty.
