Numer katalogowy	MMAI-MIN-14WRD

Opis produktu

The Mishimoto Mini Cooper air intake will transform the driving experience of your Mini, with the aggressive turbo and induction sounds that it brings to the table. The high-flow filter and 3" intake pipe maximizes airflow to your turbo, while still being safe to run on the stock tune. The black powder-coated heatshield will a pleasing focal point of your engine bay as soon as you pop the hood. The utilization of the stock fresh air duct allows cool air to flow directly into the filter for a denser air charge. You won't waste any time cutting or trimming to make parts fit, because this Mini Cooper air intake is designed to be a direct fit with no modifications necessary. Like all Mishimoto Mini Cooper parts, this intake comes with Mishimoto Lifetime Warranty! Direct fit for 2014+ Mini Cooper S Pipe Diameter: 3" OD / Pipe Material: Mandrel-Bent Aluminum / Airbox Material: Steel, Black Powdercoat Highly aggressive intake tone under acceleration Air filter has built in velocity stack for crisp throttle response Mishimoto Lifetime Warranty
