Cena brutto	1 787,01 zł
Cena netto	1 452,85 zł
Numer katalogowy	MMAI-STI-08WBK

Opis produktu

Provide maximum, unrestricted airflow to your WRX or STI with the Mishimoto Subaru WRX/STI Race Intake. Mishimoto pulled out all of the stops with this intake, featuring a 3" short-ram intake pipe, designed with large turbochargers and maximum airflow in mind. Designed to fit on either your stock or Mishimoto turbo inlet tube, this race intake is also compatible with most aftermarket front-mount intercooler kits. Due to the size of the intake pipe, a re-tune of your vehicle's ECU is necessary to keep your engine running safe and extracting the most horsepower from the added airflow. The intake pipe also features a CNC-machined air diverter to provide consistent airflow readings to the MAF sensor, making re-tuning quick and easy. The intake pipe is available in a polished or wrinkle black finish. A 3" diameter Mishimoto high-flow air filter is also included which features a built-in velocity stack for maximum flow. An optional airbox is available for this intake, designed to keep unwanted hot engine air away from the filter. The airbox is designed to re-use the stock intake duct to provide fresh outside air to the filter, also retaining a stock-like appearance in your engine bay. This intake comes with all of the necessary clamps, couplers, hardware, and protective rubber edging for a clean install. It will also give your Subaru WRX or STI a highly aggressive intake tone under acceleration. For added cooling and performance on and off the track, pair this intake with the Mishimoto Subaru Impreza WRX STI Performance Aluminum Radiator, Subaru WRX STI Performance Top-Mount Intercooler Kit, and Subaru WRX STI Silicone Induction Hose. The Mishimoto Subaru WRX/STI Race Intake includes the Mishimoto Lifetime Warranty. Direct fit for the 2008-2014 Subaru WRX/STI. Dyno-proven gains of up to 25 whp and 25 wtq with no tune required. Aluminum intake pipe features air straightener and CNC-machined MAF housing. 16% greater filter surface area than stock for bolt-on power in under an hour. Mishimoto Lifetime Warranty.
